# About Show

**The 7th International “Nonwoven Expo Bangladesh -2026”, Scheduled for September 24-26,2026, at the International Convention City Bashundhara (ICCB), Kuril, Dhaka, Bangladesh.**

A Premier Trade Show Focusing on Nonwoven Technology, Disposable Hygiene Products, Tissue Paper, Packaging Machinery, and Filter Technology. It Offers A Significant Exhibition and Networking Platform for Industries Including Nonwovens, Super Absorbent Polymers (SAP), Baby and Adult Hygiene Products, Wipes, Health and Medical Care Products, Tissue and Hygiene Product Machinery, Hot Melt Adhesives, Automotive, Filtration, Packaging, Building, Civil Engineering, Medical, Footwear, Sportswear, Furniture, and More. The Event Aims to Showcase Major Industry Developments and Foster Connections Under One Roof.

The global nonwoven market (valued at USD 58.19 billion in 2024, projected to reach USD 104.51 billion by 2033 with a 6.7% CAGR), its domestic market is expanding rapidly due to local manufacturing and import reliance on the other hand tissue and hygiene paper market in Bangladesh is valued at approximately USD 4.07 billion, with an expected 5.84% CAGR from 2025 to 2029, reaching USD 5.11 billion by 2029.

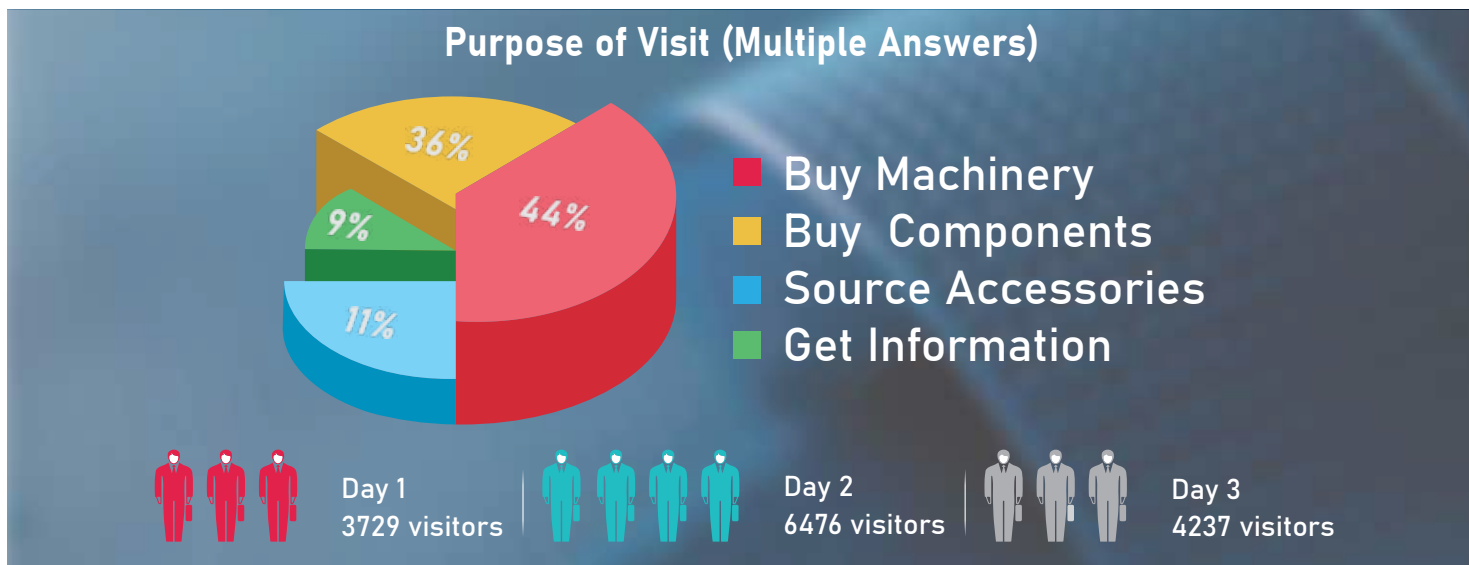

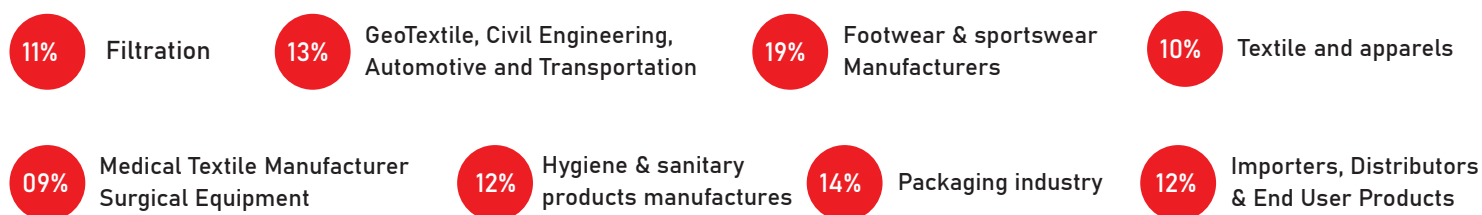

# Post Show Report 2025

## 6TH International Nonwoven Expo Bangladesh 2025 Post show report

### By Business Category

### Exhibition top 3 reasons for attending

### Key Highlights

- Live Machinery Demonstrations
- Industry Keynote Sessions with thought leaders
- Innovation Pavilion – spotlighting cutting-edge tech
- B2B Networking Opportunities
- Technical Workshops & Seminars
- Export Potential & Market Diversification

# Visitor Profile

Agriculture, Construction, Geotextile, Automobile, Pharmaceutical Industry, Ceramic Industry, Cement Industry, Filtration and separation, Shoes and leather material, Furniture and interiors, Traders and distributors, Medical and health care, Hotel Industry, Hygiene & sanitary products manufactures, Packaging industry, Schools, Luggage products, Textile and apparels, Government and public offices.

## Exhibitor Profile

### Non Woven Fabric Manufacturer For

Filtration, Packaging, Automotive, Composites, Construction, Civil Engineering, Medical, Home Furnishings, Hygiene, Cleaning & Wipes Nonwoven bag manufacture Nonwoven machine manufacture/dealer Nonwoven machinery, Converting machinery, Auxiliary manufacturing equipment, Waste handling equipment.

### Master batch manufacture/dealer Nonwoven printing solution providers Ink, Screen Printing Machinery

### Raw materials for nonwovens and ancillaries

Adhesives & Binders, Chemicals, Fibres and Filaments, Films/Membranes, Fluff Pulp, Scrims for Reinforcement, Superabsorbents, Surface treatments / Coatings, Tapes, elastics, mechanical fastenings, Tissue, papers, Others

### Bag Accessories Manufacture Nonwoven Medical Products Government Bodies Services

Publications, Research institutes and laboratories, Trade associations, Manufacturing licenses, Other services Airlaid Structures, Drylaid, Wetlaid, Meltblown, Composites, Fibrillated or perforated film, Spunlaid, Spunlace/hydroentangled, Other structure.

### Nonwoven roll goods

Transport/vehicle construction, Building, Wipes & cleaning, Civil engineering/geotextiles, Agriculture/horticulture, Clothing/interlinings & wadding materials, Shoes/leather goods, Food, Packaging, Electronics, Home furnishings, Household, Medical, Hygiene/personal care, Safety technology, Protective clothing, Filtration, Substrates, Many others

# Industry Overview

According to a report by the world's largest market research store "Research & Markets", the Global Nonwoven Fabrics market accounted for \$44.37 billion in 2017 and is expected to reach \$98.78 billion by 2026, growing at a CAGR of 9.3% during the forecast period. It is also assumed that the durable non-woven market will grow with a higher CAGR rate.

Nonwoven fabric has become a key constituent of the man-made fiber market. In spite of having a large demand in our country, there are only a few non-woven factories in Bangladesh. These factories are only producing PP spun bounded non-woven and cannot fulfill the local demand for non-woven fabric. As a result, to fulfill market demand, a maximum amount of nonwoven is imported from different countries such as India, China, Thailand, Hong Kong, Taiwan, and Korea. According to statistics, Bangladesh imported non-woven fabric costing US\$ 188.99 Million only in 2012-13. Bangladesh can become a significant player in the nonwoven industry as the market is offering huge opportunities and the country also has a large possibility to grow in this industry. It is high time to grow in this sector to fulfill the local as well as global demand.

Non-woven fabric is often said to be the future of the textile industry as their global demand & versatility are only getting higher & higher. Developing in this sector, Bangladesh can save foreign currency, make the economy of the country stronger, create new employment, and open many more new possibilities & opportunities for the country.

## Cost of Participation

Corner Space Shell Scheme ( TWO SIDE OPEN ): US\$ 320/ Per Square Meter + VAT 15 %

Minimum Space : 9 Square Meters

Shell Scheme ( ONE SIDE OPEN ): US\$ 300/ Per Square Meter + VAT 15%

Minimum Space : 9 Square Meters

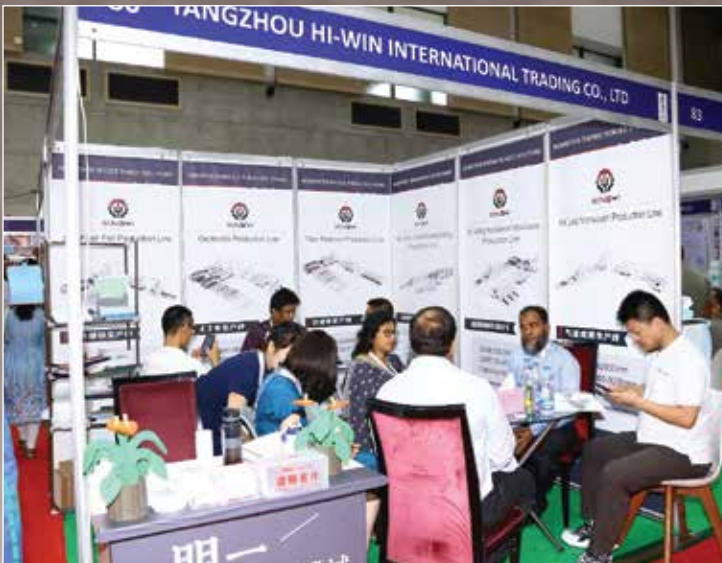

Bare Scheme : US\$ 280/ Per Square Meter + VAT 15%  
(Minimum 54 Square Meter)

One package stand of 9 sqm includes partitions, carpeted floor, single phase socket, fascia with company name, 01 Square tables, 02 chairs, 02 fluorescent tube lights, and 01 waste basket.
